

Export References from Library Search

Mac:

Items found using library search can be exported to EndNote, both individually and as a group. It is important to check your references in your EndNote library as some editing may be required.

Individual item:

- 1. Leave your EndNote Library open.
- 2. Open your Internet browser and go to: https://Library.sydney.edu.au/.
- 3. Search for the item that you wish to export from Library Search on the Library Homepage.

"back pain treatment*" X / Everything

- 4. Your search results will be displayed.
- 5. Click on the **show actions options** on the top pane.
